Extract from the Rules adopted by the Managers of the Philadelphia Almshouse, relative to the Medical Library.

FIRST.

The books shall be lent out *only* to the following persons: The Physicians of the Almshouse, and the Managers for the time being; and to any person who, as Physician, may or shall have served the institution for a period not less than five years.

SECOND.

The sum to be paid for a right or privilege during life, in the Library, conformably to its rules, shall be thirty dollars, payable in one entire sum. But any person entitled to attend the practice of the Almshouse for a season, may so long use the Library, the right in neither case to be transferable.

THIRD.

A folio may be loaned for four weeks, a quarto three weeks, an octavo and duodecimo two weeks, and no longer, unless the loan be renewed.

FOURTH.

A deposit of ten dollars shall, in every instance, be left for each book lent, unless the same is worth more than six dollars, in which case the deposit shall be at least double its value; the borrower shall return the book undefaced, within the time specified by these rules, at the expiration of which he may take the book again, provided no other person applies for it; but if so applied for, the new applicant shall have the preference. The attending Physicians shall leave their signatures for each book they may take out of the Library, but a deposit shall in every other case be left.

FIFTH.

In case a book be returned *injured*, the borrower must either pay for the injury, replace the book, or pay double its

value, or forfeit his deposit, and be deprived of the future use of the Library at the pleasure of the Board.

SIXTH.

No individual can have more than two books at one time, except the Physicians of the house.

SEVENTH.

If any person takes a book from the Library, without the knowledge of the Librarian, and makes the deposit prescribed by the fourth rule, he shall forfeit his privilege.

EIGHTH.

A fine of twelve and a half cents per week shall be paid for every book kept beyond the limited time; and if the borrower does not return it within three months from the date of his deposit, it shall be deemed lost, in which case the deposit shall be forfeited, and the book replaced, or its value paid by the borrower, in default whereof his right to the Library shall be forfeited.

NINTH.

If a single book, not belonging to a set, should be lost, the borrower shall forfeit his deposit; and if one or more belonging to a set or sets be lost, he shall also forfeit his deposit, take all the remaining volumes, and pay the full value of the whole set.
